Delay SNAP cost shift to keep kids fed

It seems that the "One Big Beautiful Bill Act" is beautiful to those who need it the least, and big in the number of people (5 million) who will lose SNAP benefits, including over a million children.

I cannot think of anything more shameful in a country of such wealth as ours. Please join me in writing to Congressman Mark DeSaulnier and all other Bay Area representatives to demand that Congress enact a clear two-year delay of the SNAP cost shift for all states.
